Flowers

Green Connection provides full-season flower care, ensuring beautiful displays through:

Annual Flower Installation – Professional planting of annual flowers in a variety of colors and textures for planters and landscape beds. Hanging baskets and containers are delivered fully planted and ready for display.

Seasonal Maintenance – Ongoing pruning, deadheading, watering, fertilizing, and weeding to keep flowers healthy, full, and looking their best all season long.

Fall Cleanup – Removal and disposal of annual plantings from beds and containers, along with collection and storage of baskets and planters.

GREEN CONNECTION

Grounds

Green Connection's ground maintenance includes the following:

Spring Cleanup

- Removal of winter debris, leaves, and weeds from plant beds and turf areas.
- Power rake or blow turf areas as needed.
- Traction gravel removal from plant beds and turf areas.
- Pruning of snow or moose-damaged limbs.

Recurring Maintenance

- Turf Maintenance.
- Trash and Debris Management.
- Shrub and Hedge Maintenance.
- Edging and Trimming.
- Leaf removal from turf and landscape areas.

Turf Applications

- Spring and Fall Fertilization – Balanced fertilizer applied seasonally.
- Herbicide Application – Weed control by certified applicators.

GREEN CONNECTION

Landscaping

Green Connection provides a wide range of landscaping services, including but not limited to:

Weed Fabric Installation & Mulching – Installation of weed barrier fabric combined with the application or refresh of mulch or decorative rock to suppress weeds and enhance overall landscape appearance.

Planting of Perennials, Trees & Shrubs – Installation of seasonal and long-term plant material to add structure, color, and year-round interest to landscapes.

Edging Installation – Installation of various edging materials to define landscape beds, pathways, and lawn borders, creating clean lines while preventing turf or groundcover migration.
